[Text testimonial]

To Sir Moses Montefiore Bart

The Members of the Hull Hebrew Congregation desire respectfully to congratulate you on your safe return to England after the successful accomplishment of your recent Mission to Morocco.

The happy result of your exertions is to your, doubtless, their best reward, but the feeling of pride and joy with which you have filled the hearts of your coreligionists throughout world will, it is hoped, be regarded by you as some slight acknowledgment [sic] of your noble devotion to the cause of our persecuted brethren. The Members of this Congregation yield to no other body of Jews in their heartfelt appreciation of the Courage and philanthropy displayed by you in your late arduous undertaking. You have long been the great benefactor of our race, and this last achievement forms but one of a series of noble efforts in a sacred cause, perhaps the most successful of them all; it is worthy of your fame, and will redound to your glory in after ages.

We fervently hope that it may please the Almighty to preserve you in health and happiness for many future years.
